

## Alternate Activity- Kennedy Space Center

**February 4th, 2009**

**Kennedy Space Center**

**Kennedy Space Center, Florida**

**1pm**

**\$165 per Person (Includes Lunch)**

Your exploration of NASA's launch headquarters traverses an amazing area that includes towering launch pads, huge rockets, history-making technology, and vast stretches of Florida wildlife. The NASA Up-Close Tour and the Cape Canaveral: Then & Now Tours are guided by a space program expert and take you deeper into the operations of Kennedy Space Center.

Not golfing? Visit Kennedy Space Center where history, the future, nature and technology come together for an inspirational journey through space and time.

Where else in the world do history and the future, nature and technology, young and old meet for an unforgettable and inspirational journey through space and time? The Kennedy Space Center has hosted millions of guests from around the world for more than 30 years -- telling the story of how the United States built a space program that launched men to the Moon, orbited satellites that have improved our lives, and sent probes into distant space to solve the mysteries of the cosmos.
