

CFESA

Commercial Food Equipment Service Association

Certified Service Companies (Voting Members)

CFESA's Company Certification program is designed to raise the bar of quality in the foodservice industry and to distinguish the companies that provide superior service. The certification has requirements in five areas including financial, education and training, industry participation, industry relations and professionalism. These requirements were carefully created to enable high quality Voting member companies of any size to achieve CFESA Certified Company status. CFESA requires each Certified company to become re-certified every 3 years.
