CFESA

Commercial Food Equipment Service Association

Service Companies (Affiliate Members)

During the lifetime of any piece of commercial cooking or refrigeration equipment, it will need to be serviced. Whether it's during the installation, warranty period or after the warranty period, CFESA Service Companies are your answer. For over 40 years the Commercial Food Equipment Service Association's members have provided their customers with quality service, proactive maintenance programs and installation of commercial cooking and refrigeration equipment.

These companies service commercial foodservice equipment, maintain service contracts with manufacturers, stock their manufacturers' parts & have the tools and facilities to provide service whether they are in-shop or in the field.

CFESA has established 2 categories of membership for service companies to help them enter into the association and provide the opportunity for growth within the industry. Depending on their current qualifications they are listed under the sections: Service Companies (Voting Members) or Service Companies (Affiliate Members).

An Affiliate Member, Article II – Membership (d) Affiliate Members, is described as “Any firm, partnership or corporation actively engaged in the business of selling commercial foodservice equipment or interested in promoting quality service shall be eligible for membership as an Affiliate Member of this association.”
